

ES-1200 ENERGY SYSTEM

- > **HANDY SIZE**
- > **LOW WEIGHT**
- > **EMERGENCY POWER SUPPLY**

SEMI-PROFESSIONAL ENERGY SYSTEM WITH 10 POWER OUTLETS AND BUILT-IN LED LAMP

The ES-1200 is a very handy energy system with low weight and a good solution when you need energy in even the least accessible places. Whether it's down at the bottom of an elevator shaft or out in the hunting cabin in the middle of the forest, the ES-1200 delivers up to 1200W for your power tools, lights and cooking.

Completely unique ES-1200 compared to the rest of the ES series is the very low weight of just 11 kg and the very small volume. This makes it an important part of the luggage when you need power on e.g. camping and sailing trips, but also as an emergency power supply for transportable personal aids such as oxygen concentrators.

With the ES-1200's high-quality LiFePO4 battery, you can also easily charge 5-6 batteries with 230V and ensure power for your entire working day.

You charge the ES-1200 with 230V directly from the socket, and if you have a vehicle with an inverter fitted, it can also be charged here. You can also charge the ES-1200 directly from a solar panel or via a 12V cigarette lighter socket.

The ES-1200 is equipped with a practical digital display, which shows both charging and consumption, and a powerful 7W LED lamp on the back. This makes the ES-1200 an attractive tool for both leisure and professional use in the workshop, at home or off-grid.

FEATURES

- 1200W, 230V AC pure sine inverter
- 992Wh LiFePO4 battery
- Weighs only 11 kg
- Digital display with consumption
- Built-in 7W LED lamp.

ES-1200 SPECIFICATIONS

Model No:	ES-1200
Bluetooth / Digital Display:	No / Yes
Dimensions:	289x330x220 mm (HxLxW)
Operating temperature:	-15 °C to +40 °C Under 0°C, the performance is reduced by 85% depending on the environment
AC Output:	Voltage: 230-240V Waveform: Pure Sinus Frequency: 50/60 Hz Power: 1200W (max. 3600 W)
USB-A Output:	5V/3A, 9V/2A, 12V/1,5A (18W Max)
USB-C Output:	5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/3A (60W Max)
USB-C Output:	5V/3A, 9V/2A, 12V/1,5A (18W Max)
LED-Light:	7W
Battery Type:	LiFePO4
Battery Capacity:	31Ah
Weight:	11 kg

There is a powerful 7W LED lamp on the back of the ES-1200 energy system.
